## Who We Are

**CompuCycle**, a Houston-based R2 and ISO 14001:2004 certified company, strives to provide our customers and community with safe, secure, and responsible electronics recycling through a certified process of resale, reuse and de-manufacturing.

## Why Choose an R2 Recycler?

-Data Security: required to sanitize or destroy all data on hard drives and storage devices.

-Environmental Practices: perform due diligence ensuring materials are handled properly throughout the chain of custody.

-Proper Electronic Disposal: maintain necessary permits, licenses, and insurance required by state and federal regulations.

## Our Services

**Asset Remarketing:** refurbishing equipment for reuse to extend the life of resources.

**Asset Tracking:** custom tracking inventory reports are provided which include all necessary information on individual assets.

**Microsoft**  
REGISTERED

*Refurbisher*

**Secure Data Destruction:** CompuCycle uses two methods for data sanitization:

Perform Department of Defense Compliant data sanitization on refurbishable hard drives.

Physical destruction of hard drives using our industrial strength shredding machine.

## Easter Seals Partnership

CompuCycle and Easter Seals Greater Houston have partnered with the ultimate goal of creating jobs for individuals with disabilities in the electronics recycling industry. As corporations donate their equipment to the program, Easter Seals and CompuCycle staff will train individuals with disabilities proper job skills for working in electronics recycling. Currently 1 in 5 Americans are affected with a disability but YOU can help these citizens find a job in a respectable industry! Be a part of this unique and truly amazing program by donating your computer equipment to CompuCycle and Easter Seals!
